Summary

- Proficient in HTML 5, CSS, JavaScript, and React.js.

- I developed a personal portfolio website using ReactJS and JavaScript, utilizing my skills in front-end web development, including JSX, CSS, and responsive design. I implemented dynamic features and interactive components to showcase my projects and skills in a visually appealing manner. Overall, I created a professional and functional portfolio using my expertise in ReactJS and JavaScript.

- Built a to-do list application using React.js, demonstrating strong knowledge of React components, state management, and event handling.

- Conceptualized and developed a currency exchange app in JavaScript using Fetch API, showcasing expertise in asynchronous data fetching, error handling, and user interface design.

- Created multiple demo websites using HTML and CSS, showcasing skills in responsive design, cross-browser compatibility, and user interface design.
